COMMERCIAL

Sweetbird is all about getting creative with ingredients and flavours, then pouring this into everything they do so you can make drinks that look and taste delicious every time. Obsessed with perfection, Sweetbird travel the globe to spot new trends and continually experiment with ingredients and recipes – all while steering clear of artificial preservatives* and colourings. This helps ensure the Sweetbird product range not only tastes exceptional but delivers the innovation, versatility and simplicity customers are looking for.

Follow @hellosweetbird for recipes, product news and inspiration

*except pureé, Liquid Frappé & Granita Base, sugar-free syrups, hazelnut and toffee nut syrups.

SWEETBIRD.COM

ZUMA

Zuma has been creating their collection for almost 20 years, ensuring there's a drink for everyone.

The hot chocolate blends are original, dark, single origin, Fairtrade, thick and white. Zuma have also created sauces, chai, toppings and toppings.

The range is simple, just like the ingredients. It's not that Zuma are stubborn - they just won't compromise when it comes to taste and quality.

Follow @zuma.drinks or visit zumadrinks.com to see all they have to offer

BRISTOL[®] SYRUP CO.

The Bristol Syrup Company is a collaboration between Beyond the Bean and the best of Bristol bartenders, distilling down years of experience to create a range of quality cocktail syrups, purées and juices.

From classic bar staples like orgeat and vanilla through to innovative, award-winning shrubs, sherbets and disco, our syrups are designed for bartenders by bartenders. We believe syrup and purée shouldn't be an afterthought when making cocktails. The quality and taste should be as well considered as the chosen spirits, mixers and garnishes, as well as tasting authentic to the name on the label.

Our syrups are favoured by bartenders around the country, stocked in many of the UK's top 50 Cocktail Bars 2025 and chosen by both high-volume bars and luxury venues. Made in our AA BRCGS accredited Bristol based syrup plant.
